Avant-propos	7
Introduction	9
Acknowledgments	13
JOSE A. MOMPEAN	
Chapter 1 – Cognitive Phonology: A Toolkit for Theory and Practice	15
Introduction	15
What is in a label? “Cognitive” and beyond.....	16
Cognitive Linguistics and its usage-based, situated view of language.....	17
Linguistic knowledge in Cognitive Linguistics	20
Cognitive Phonology.....	23
Conclusion.....	31
EJI YAMADA, SACHIO HIROKAWA, CHAO ZENG	
Chapter 2 – Assessment of a Subsidiary Stress Rule for English Words Based on a Linguistic Corpus	33
Introduction	33
Research Question and Method	34
Motivations for Positional Function Theory (PFT).....	35
<i>Five</i> Positional Functions.....	37
Programming.....	40
Results and Discussion: Data vs. Predictions	42
Conclusion.....	46
COLINE CAILOL AND EMMANUEL FERRAGNE	
Chapter 3 – Me[t]al or Me[r]al? Factors Influencing /t/ Flapping in the Singing Voice	49
Introduction	49
Americanization of the singing voice	49
The specific case of British Heavy Metal	50
Commercial Recordings Study	51
British or American? The pronunciation of word-internal /t/.....	51
The database.....	52
Analysis and results	53
Why Americanization?	53
Phonetic factors influencing /t/ Flapping in the singing voice.....	54
Theoretical background: Ease of Articulation and Intelligibility.....	54
Database analysis.....	55
Experimental analysis.....	56
Conclusion.....	61

MARC-PHILIPPE BRUNET

**Chapter 4 – “We have our own idea of vowels in the South”:
Indexicality and Stylistic Variation of /aɪ/ Monophthongization
and the PIN/PEN Merger in Middle Tennessee**

Introduction	63
The linguistic variables	64
Internal constraints of the linguistic variables	64
Social significance of the linguistic variables	66
Methodology	69
Fieldwork and data collection: PAC Tennessee	69
Data processing	71
Results and Discussion	72
The PIN/PEN Merger	72
Stage 1	75
Conclusion	80

VÉRONIQUE LACOSTE, JEFF TENNANT AND DAMARIS HOLMES

Chapter 5 – Prosodic Rhythm in Toronto Haitian English

Introduction	83
Research on local varieties of Toronto English	83
The Toronto Haitian English Project	84
Prosodic rhythm	85
Timing classification of languages	85
Rhythm metrics	85
Prosodic rhythm and language contact	86
Haitian Creole Prosody	87
Hypothesis	87
Corpus and methodology	88
Results	90
Discussion	95
Conclusion	96
Acknowledgements	96
Appendix	97

JULIA BONGIORNO, SOPHIE HERMENT AND AIRELLE THÉVENIAUT

**Chapter 6 – The PAC-Prosody Protocol: Eliciting Speaking Styles
for Prosodic Analysis. The Example of Irish English**

Introduction:	
the PAC programme and the common PAC protocol	99
The PAC-Prosody protocol: eliciting various speaking styles for the analysis of prosody	100
List of sentences to read	101
Description of a picture	102
Map-Task	103
A continuum from least to most ecological data	104

The example of Irish English.....	105
The PAC-Dublin and the PAC-Galway corpora	105
The PAC-Dublin corpus.....	105
The PAC-Galway corpus	106
Annotation	106
A typology of intonation in Dublin and Galway.....	107
A study of rising tones in various speaking styles in Dublin.....	110
Rising tones in three speaking styles	110
High Rising Terminals in four speaking styles in Dublin English....	112
Results for the four speaking styles	112
Interactional functions.....	113
The forms of HRTs	114
Discussion	115
Conclusions and perspectives	116
MARJOLAINE MARTIN* AND ANNE PRZEWOZNY**	
Chapter 7 – Lexical Stress Variation in Australian English: Investigating Aboriginal English Data from Dictionary-Based to Spoken Corpora	119
Introduction	119
Two hypotheses on the stress patterns of Aboriginal loanwords in Australian English.....	120
Influence of Australian indigenous languages on word stress patterns in AbE dialects.....	121
Testing lexical stress on AbE spoken data	122
AusTalk data and methodology	123
AusTalk data: results and discussion.....	126
The PAC-Australia [Ulladulla] data and methodology.....	128
PAC-Australia [Ulladulla] data: results and discussion.....	129
On the Aboriginality of stress patterns in the present study.....	131
Conclusion.....	133
PAOLO MAIRANO AND CAROLINE BOUZON	
Chapter 8 – Piloting a Minimal Pair Identification Test for Integration into the IPAC Learner Corpus.....	137
Introduction	137
Motivation	137
The new IPAC protocol	138
Modularity.....	138
The obligatory core.....	138
The extra modules.....	139
Desiderata for a perception module for the IPAC learner corpus.....	140
Goal of this study.....	140
Methodology	141
Selection of phonemic contrasts	141
Stimuli	143
Format	143
Participants.....	144
Statistical analysis.....	144

Results and discussion 145

 Identification rates by L1 145

 Identification rates by learner group..... 146

Conclusion and perspectives..... 149

Acknowledgments..... 150

Bibliography..... 151

Index of Names 173

Index of Concepts..... 177
